

Profile Summary

I have about 1 year experience in developing web pages in an E-Commerce site along with content management and have been involved in all the stages of the typical software lifecycle such as business analysis, developing, testing, deployment and maintenance. The projects that I worked are based on Perl as backend and Javascript, JQuery and SASS for UI implementation. I know the basics of Node.JS and ReactJS.

Work Experience

Programmer Analyst Trainee • Cognizant • 26th September 2017 – 26th September 2018

Programmer Analyst • Cognizant • 26th September 2018 - present

Technical Skill

Hardware / Platforms	Node.JS
Frameworks	React JS, jQuery
Programming Languages	Java, C++, C
Databases	MySQL, MongoDB
UI Technologies	Html5, CSS
Scripting Languages	JavaScript

Project Experience

Project # 1

Client	LaMer (Estee Lauder Companies)
Operating System	Windows 8
Tools	Mind term, Edit plus
Duration	4 months
Technical Skill Involved	Perl, JavaScript, Html, CSS

Project Overview/Background/Context–

Our project is to rollout the features of E-Commerce site LaMer from US region to Taiwan region with modifications in functional and UI components as requested by the client.

Roles & Responsibilities –

My role is to develop account related pages of the site like Profile, Order History, Wish list pages etc.

Technical Solution Offered / Key Contribution –

I have given a special contribution of adding 'Add to Cart' functionality in Order History page.

Business Impact –

My contribution has saved a lot of time and hassle as the product can be added to cart just from history without the need of going to the product page.

Project # 2

Client

Operating System

Tools

Duration

Technical Skill Involved

Mac Cosmetics(Estee Lauder Companies)
Windows 8
MindTerm, EditPlus
4 months
